

G&M Body and Paint Shop

AN IMPORTANT MESSAGE FROM G&M BODY SHOP REGARDING COVID-19 SAFETY AND RESPONSE

At G&M Body Shop, our first priority during this time of Covid-19 concern is for the safety of our employees and customers.

As we have taken measures to be more active in disinfecting surfaces and areas all through our office and break room, we also have advised all employees to not come to work if they are not well, or are at a particular risk with their personal health.

Our employees are utilizing rubber gloves, disinfectant spray and wipes to ensure their safety while working on customers vehicles. If this is an issue, please feel free to reschedule to a later date.

We are also asking our customers to do the same and stay home if you are not well or experiencing symptoms of Covid-19. We will be more than happy to reschedule your vehicle repairs over the phone.

While our plan is to maintain normal work and office hours, we also want to alert you that due to the situation surrounding Covid-19, there may be changes/delays to your vehicle repairs and the parts/supplies needed to repair your vehicle.

We will do our best here at G&M Body Shop to keep our customers updated of any changes to your repair schedule during this situation.
